3.3. The organising Committee reserves the right to refuse an entry without giving any reason. The maximum number of entries may have to be reduced to 60 for technical reasons.

### **Article 4: CREWS**

4.1. Each crew consists of 2 members, the driver and the navigator (co-driver).

The driver must be in possession of a valid driving licence for the vehicle to be driven, should strictly observe all traffic laws and at no circumstances should he exceed the speed limit allowed by law.

The navigator must sit in the front seat next to the driver during the whole length of the route.

Additional passengers are allowed during the event, provided that the vehicle has suitable seating capacity.

#### **Article 5: COMPETITION NUMBERS & PLATES**

5.1. The Organizing Committee shall provide side numbers, which must be securely fixed to each side of the vehicle throughout the duration of the event. They should be placed in such a position as to be easily identifiable from a distance by the Timekeepers and Marshals.

5.2. Absence or loss of each side number imposes a penalty of 20 points. At Special Stages, though, such an absence may incur a penalty equal to as if the Special Stage were not performed (see paragraph 8.3. below).

#### **Article 6: ITINERARY-RESTRICTIONS-AVERAGE SPEEDS**

6.1. The exact starting time for each vehicle, the exact location of the start and finish, as well as the itinerary, the distance between Control Points and Ideal Times for each Category will be noted in the Road Book or will be announced in a Special Bulletin.

6.2. In principle, the average speed for special stages for each Category is:

- Category B: 30 km/h.
- Category C: 36 km/h.
- Category D: 40 km/h.
- Category E: 45 km/h.
- Category F: 50 km/h.
- Category G: 50 km/h.
- Category H: 50 km/h.
- Category Y: 50km/h.
- Category Z: 50 km/h.

6.3. The itinerary as well as the starting time is obligatory. A competitor who presents himself late at the start will incur a penalty of 10 points for each delayed minute.

6.4. In the Special Stages competitors will drive at the average speed required, WITHOUT STOPPING or DELAYING or OBSTRUCTING other competitors. Failure to this will entail a penalty of 100 points.

#### **Article 7: TIME CONTROL POINTS - PASSAGE CONTROLS**

7.1. Time Control Points (TC) and Passage Controls (PC) will be situated along the route. TCs are noted in the Road Book. PCs may be secret. All Controls will start operating 30 minutes before the scheduled time of arrival of the first vehicle.

7.2. Competitors must present themselves at each TC at the exact minute, which results from adding the time, allowed for that section to the time of arrival of the previous TC or the Start of the event (for the first TC).

EXAMPLE: A vehicle starts the event at 15:10 hrs. The time allowed covering the distance between the start and the first-time control point is 65 minutes.

The vehicle should arrive at the first TC at 16:15 hrs

7.3 Any delay in arriving at a TC will entail a penalty of 10 points for each whole minute.

7.4. Early arrival at a TC, Regrouping or Finish is allowed. NO WAITING IS ALLOWED BEFORE a TC, Regrouping or Finish.

7.6. At the control areas competitors must adhere to the instructions of the officials.

7.7. The drivers must follow the traffic regulations AT ALL TIMES. Failure to do this, if verified by the police, will incur the expulsion of the crew from the competition.

### **Article 8: SPECIAL REGULARITY TESTS - OTHER TESTS**

8.1. The Special Regularity Tests (SRT) take place between two points along the route of the rally and aim in establishing the speed of the vehicles between these points. They may be noted in the Road Book or will be announced by a Special Bulletin. They MAY NOT be indicated by signboards.

The average speed for each category is indicated in the road book, or will be announced by a Special Bulletin.

8.2. Each vehicle will be timed DOWN TO THE SECOND by the Time Control(s) within the SRT. The timing of the vehicles will establish the speed of the vehicles along the SRT, which should be exactly equal to the average speed set for the test. According to the average speed set for the SRT for each category, each vehicle should pass by the Time Control(s) at a certain time. Any advance or delay from this time will be calculated in seconds and there will be a penalty of one (1) point for each second deviation from the set time.

EXAMPLE:

A vehicle passes by the Start of the SRT at 15:10': 26" hrs. The average speed set for this SRT is 30 km/h. The first Time Control of the SRT is situated exactly at a distance of 1 km from the start of the SRT. So, the vehicle should pass by the first Time Control exactly two minutes after the time it passed by the start of the SRT.

The vehicle was timed passing by the first Time Control at 15:12': 18" hrs. The vehicle therefore, has passed by the first Time Control 8 seconds earlier than the set time, which entails a penalty of eight (8) points.

8.3 Failure to participate in or to complete a Special Regularity Test will entail a penalty equal to the penalty points awarded to the lowest placed competitor increased by 100%.

8.4. During the event there will possibly be a number of other tests to tax the ability of the crews. The nature of these tests, the procedure to be followed and the penalty points will be announced in a Special Supplement of these regulations.
